

Eurobio Scientific Announces New Tagline: “Where Innovation Drives Diagnostics”

Marking a New Chapter in 60 Years of Leadership in Specialty Diagnostics

Paris, 28 May 2026

Eurobio Scientific Group, a global leader in specialty diagnostics, today announced the update of its corporate tagline from “Experts in Diagnostics Solutions” to “Where Innovation Drives Diagnostics.” This update reflects the Group’s expanded portfolio and its long-standing commitment to advancing the diagnostics field across transplantation, infectious diseases, life science, and oncology, through development, production, and global distribution.

A tagline that reflects 60 years of innovation

Since its founding, innovation has been the cornerstone of Eurobio Scientific’s identity. Over six decades, the Group has grown into a diversified specialty diagnostics leader through strategic acquisitions and in-house development, consistently advancing the diagnostic field with the ultimate mission of improving patients’ quality of life.

Today, a large portion of Eurobio Scientific’s revenue is generated from products designed and produced in-house. In parallel, Eurobio Scientific serves as an independent distributor for a broad in vitro diagnostic products portfolio in several EU countries, including France, UK, BeNeLux, DACH and Italy, enabling the delivery of flexible, broad-based solutions that meet the diverse needs of healthcare professionals and laboratories worldwide.

Statement from leadership

“This new tagline is an opportunity to ensure all affiliates within the group share the same strong sense of purpose. The message is clear: at Eurobio Scientific, we are driven and inspired to offer highly innovative solutions that can truly make a difference in patients’ lives. We wanted to develop a tagline that clearly communicates who we are as a group, inspires confidence in our commitment to advancing scientific research, and conveys ambition in a long-term vision for the field.” — **Denis Fortier, Chief Executive Officer, Eurobio Scientific**

A commitment to growth and local presence

Over the past five years, Eurobio Scientific has invested significantly in product developments, international expansions, and strategic acquisitions to advance the diagnostics field and bring meaningful contributions to patients’ lives. This commitment extends to building local presence

in key markets. This expansion reflects the Group's belief that being close to customers is essential to delivering the quality of service and expertise the field demands.

The new tagline "Where Innovation Drives Diagnostics" will be adopted across all Eurobio Scientific Group communication, reinforcing a unified strategic direction and shared sense of purpose throughout the organization.

About Eurobio Scientific

Eurobio Scientific is a major player in the field of specialty in vitro diagnostics. It is involved in everything from research to the marketing of diagnostic tests in the fields of transplantation, immunology, and infectious diseases, and offers reagents for research laboratories, including pharmaceutical and biotechnology companies. With its numerous partnerships and strong hospital presence, Eurobio Scientific has its own extensive distribution network and a portfolio of proprietary products. The Group has approximately 300 employees, four production units based in France (the Paris region), Germany, the Netherlands, and the United States, and (distribution) subsidiaries in Italy; Great Britain; Switzerland; Belgium and Australia. Eurobio Scientific's reference shareholder is the holding company EB Development, acting in concert with funds managed by NextStage AM and IK Partners, as well as members of the Company's Board of Directors and senior management.
